

YPSILON (PENDANT)

CODE:
LL-YPS-AL

PROJECT

SPEC TYPE

NOTES

CASAMBI

LUTRON

GENERAL INFORMATION:

The YPSILON pendant lamp by Lola Lighting, features a Y-shaped structure formed by three alabaster tubes converging on a central axis, allowing for rotation to adapt to various spatial configurations. This design combines the natural translucency of alabaster with a metal framework, creating a monumental piece that emits a warm, diffused light, suitable for both residential and commercial interiors. Lola Lighting oversees the entire production process, from extracting the stone in their own quarries to delivering the final, meticulously finished pieces, ensuring high-quality craftsmanship.

MATERIAL:

Alabaster (White Gelsa)

VOLTAGE:

110-277V
